the success of the cast, Jonathan Groff and Lea Michele joined moderator Jessica Ramos to discuss how they think the show has changed their lives, how they feel about having babies, what the “phantom cast” is, and more! When the panel first sat down to chat with cast members, “Glee” alumnus Jeremy Jordan, who portrays Alex Newbold, said that a lot of people are curious to find out what “Smash” is really like. “You really get to talk about so many different things and it’s very theatrical. I think I’ve always been super competitive, I’ve always been kind of a drama queen.” A talented actress, singer and songwriter, Jonathan Groff said

he feels as though he's been able to bring a new level of confidence to his acting on "Glee" and "Smash" and is excited to see what his career will bring in the future. "I don't really know why it's been such a huge transition for me but I really feel like I can just be myself and make my own stuff," said Groff.
